PRODUCT DESCRIPTION

The Keencut General Purpose Cutter is a superbly styled cutter used to cut a wide range of sheet materials. As with all Keencut models, the 60734 provides a straight, square and clean edge cut everytime. The innovative hinge and lift arm mechanism makes it possible to cut materials which are longer than the length of the cutter. Uniquely styled, the extruded and silver anodized aluminum base incorporates a narrow groove to accept the blade tip when cutting. A full length silicon rubber grip strip mounted in the surface of the base and two more on the underside of the cutter bar ensures all work is held perfectly in place while cutting and provides protection for even the most sensitive surfaces.

PRODUCT SPECIFICATION

Max. Cut Thickness	.25 in.
Max. Paper Cutting Length	120 in.
