PRODUCT DESCRIPTION

The Keencut 80 inch Sabre Series 2 General Purpose Cutter is an innovative hinge and lift arm mechanism that makes it possible to cut materials which are longer than the length of the cutter. The GPC cutter is designed to cut a wide range of sheet materials including foam core straight and squareevert time Superbly styled, the extruded and silver anodized aluminum base incorporates a narrow groove to accept the blade tip when cutting. A full length silicon rubber grip strip mounted in the surface of the base and two more on the underside of the cutter bar ensures all work is held perfectly in place while cutting, and provides protection for even the most sensitive surfaces.

PRODUCT SPECIFICATION

Max. Cut Thickness	.125 in.
Max. Paper Cutting Length	80 in.

PRODUCT FEATURES

DIMENSIONS

Weight:	85.00 lbs.
Width:	84.50 inches
