PRODUCT DESCRIPTION

Intimus Powerline PL215 Fully Automatic Programmable Cutter with F.A.I.M. The Martin Yale PL 215 21 PowerLine electric paper cutter is a programmable electric paper cutter that cuts paper up to 21 3 8 wide and stacks of paper up to 2 7 8 high. The automatic paper clamp mechanism securely holds the paper in place, ready to be cut. A fully programmable back gauge with Auto Advance automatically adjusts paper alignment. The back gauge also stores up to 5 cutting programs with up to 10 settings each. Removing the clamp plate permits the user to cut carbonless and other delicate papers with this Cutting Machine. For maximum safety, the Martin Yale PL 215 automatic electric paper cutter comes equipped with dual push button cutting control, safety guards and keyed access. Optional side tables are available for a larger workspace. FEATURES Automatic paper clamp operation Digital programmable back gauge with auto advance Cutting line light for easy reference and quick set ups Attachable false clamp for carbonless and other delicate papers Legs adjust up to 1 1 2 to facilitate leveling Cuts paper stacks up to 2 7 8 high 16 of table space in front of blade Five easy to store cutting programs with up to 10 cuts in each program Built in diagnostics for easy service Displays instructions in English, Spanish, German, French or Italian Set of either standard or metric scales Keylock access prevents unauthorized use Dual push button cutting controls for safe two handed operation Pictured with optional side tables PL2T Dimensions 34 1 4 x 45 x 49 1 2 Weight 755 lbs. PRODUCT SPECIFICATION

DIMENSIONS

Weight:	755.00 lbs.
Width:	50.00 inches
Length:	35.00 inches
Height:	45.00 inches

free for one year from the date of installation except for consumables such as rubber wheels and rollers; slitting, perforating and scoring wheels; blades, cutting sticks; etc . Why FAIM might make sense for you If you sell consumables, such as paper or forms, you can now sell bursters, decollators, folders and cutters to your customers No need for your organization to develop the servicing skills required to maintain complex machines Allows minimal involvement and frees you to pursue other more profitable or desirable opportunities Even at an installation where an adjustment might be necessary, factory authorized installers are trained to handle that eventuality In the unlikely event a machine does not function to the specifications at installation, Martin Yale will repair or replace the unit. Increased customer satisfaction, as there is less room for operator error an avoidable cause of customer dissatisfaction with equipment. NOTE The FAIM Program will aid in the proper installation, training and operation of our equipment, however, it is no substitute for proper application selling. Martin Yale warrants its equipment will operate within published specifications, however, specific applications cannot be guaranteed. If an end user has a unique application, simply supply Martin Yale with samples. We will test the application before a buying decision is made.
